Summary

I am a frontend developer with 5 years of experience working on a variety of projects, both small and large, in team environments. My passion for frontend development drives me to continuously learn and grow in this field. Currently, I am focusing on mastering the ReactJS library and honing my skills with TypeScript and Redux. As I continue to develop my expertise in this area, I am excited to contribute my knowledge and collaborate with other professionals in the industry. Let's connect and see how we can create amazing frontend experiences together!

Experience

Frontend Developer

PHILIPP PLEIN

Mar 2022 - Mar 2023 (1 year 1 month)

My responsibilities included preserving and updating existing websites, building new websites and web pages, as well as developing innovative solutions. The primary technology stack I utilized for these tasks included HTML, CSS, JavaScript, and Salesforce.

Frontend Developer

Traffic Market

Feb 2021 - Aug 2021 (7 months)

During my time at Traffic Market as a Frontend Developer, I was responsible for developing landing pages and multi-page sites from scratch, both with and without pre-made layouts. I ensured that all designs were fully adapted for all devices, and that the download speed was optimized. Additionally, I implemented unique functionalities such as element filters and calculators.

Frontend Developer

Synergy global cooperation

Apr 2020 - Jun 2020 (3 months)

I developed a website in two different languages and ensured that it was fully optimized and compatible with all devices. The website code was structured into components and then integrated into ReactJS.

Software Engineer

TravelLine

Aug 2019 - Apr 2020 (9 months)

I maintained company websites that used various content management systems, with Bitrix being the most common. My responsibilities included creating new pages, adding new features such as sliders, galleries, and tabs, optimizing page load times, and fixing errors at the JavaScript and PHP level. I also

developed JavaScript scripts with unique functionalities and worked with tools such as GIT, gulp, Sass, and Less.

Frontend Developer

truebee.ru

Sep 2018 - Nov 2018 (3 months)

I developed the truebee.ru website by creating HTML page layouts based on Figma designs, which were later implemented on LARAVEL. Additionally, I maintained the project in Git while collaborating with other developers.

Frontend Developer

Innova group

Mar 2018 - Jul 2018 (5 months)

Building websites based on pre-existing designs

Integrating PHP code into pages for statistical tracking

Implementing page and website layouts based on designs created in Figma or Photoshop, as well as utilizing layouts from pre-existing websites

Collaborating with existing code bases.

HTML Developer

Web Hype

May 2016 - Feb 2018 (1 year 10 months)

I create layouts for both one-page and multi-page websites. I also make final touches to the layouts in design software like Photoshop, Figma, and Zeplin. In addition, I communicate with clients to ensure that their requirements and preferences are met.

Education

Kazan State University

Bachelor, Software engineering

Sep 2015 - Jun 2019

Bauman Lyceum

Upper secondary education, Physics Mathematics

Sep 2004 - May 2015

Skills

BEM • TypeScript • jQuery • Git • Redux.js • React.js • Webpack • Javascript • Redux.js • SASS
